PRODUCT CATALOGUE

Model selection and dimensional drawings

2026 / EN

FS Line network cabinets

Indoor 19-inch enclosures for network rooms, telecom distribution and structured cabling.

Actual FS Line cabinet shown in black finish.

Rack format	19-inch equipment; EIA-310 compatible
Mounting rails	4 depth-adjustable rails, front and rear
Front door	Metal-framed tempered glass; metal options
Rear / side access	Metal rear panel; 2 removable, lockable side panels
Cable entry	Top and bottom entry points
Ventilation	Roof fan provisions; fan modules optional
Finish	Electrostatic powder coating
Colours	RAL 9005 black / RAL 7035 light grey
Protection	IP20, indoor use
Load rating	Up to 600 kg, configuration dependent

Capacity, door selection and accessory fit are confirmed for the ordered configuration. Equipment depth and service clearance must be checked separately from external cabinet depth.

12U - 45U / 5 footprints / 50 model codes

Installation and service access

Actual cabinet photographs. Fittings and accessories depend on the ordered configuration.

01 Roof ventilation

Roof openings provide mounting positions for optional fan modules. Select the fan module and control type with the cabinet.

02 Adjustable mounting rails

Four 19-inch rails support front and rear equipment fixing. Set rail positions for the equipment and cabling layout.

03 Cable entry at the base

Bottom entry points support cable routing into the cabinet. Allow space for connectors, bend radius and cable management.

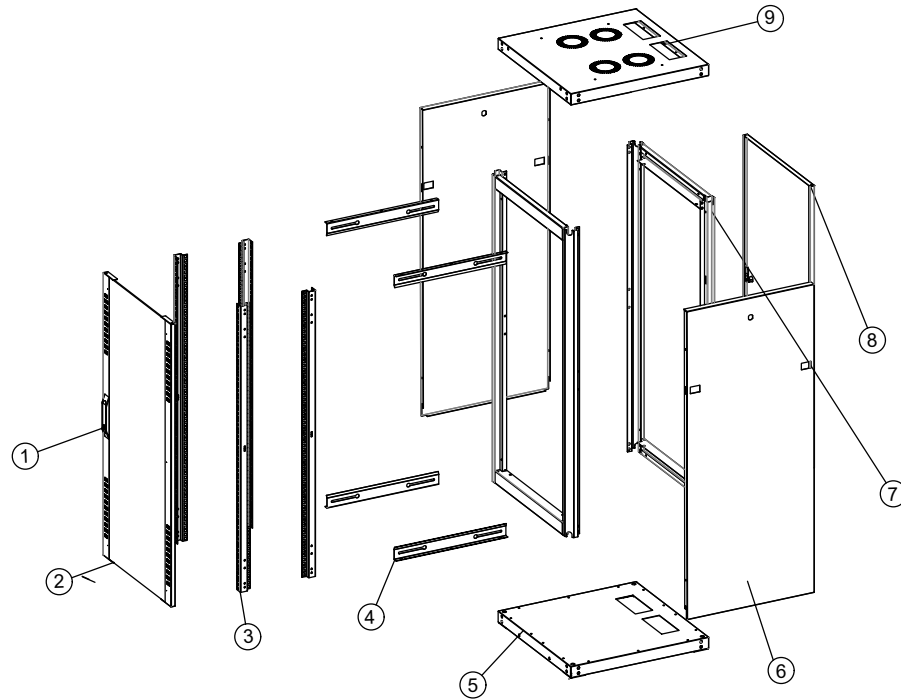

Metal rear panel and removable side panels.

Cabinet construction and door options

Original engineering illustrations, shown as series references for a 600 x 800 mm cabinet.

FRAME / PANELS / MOUNTING RAILS

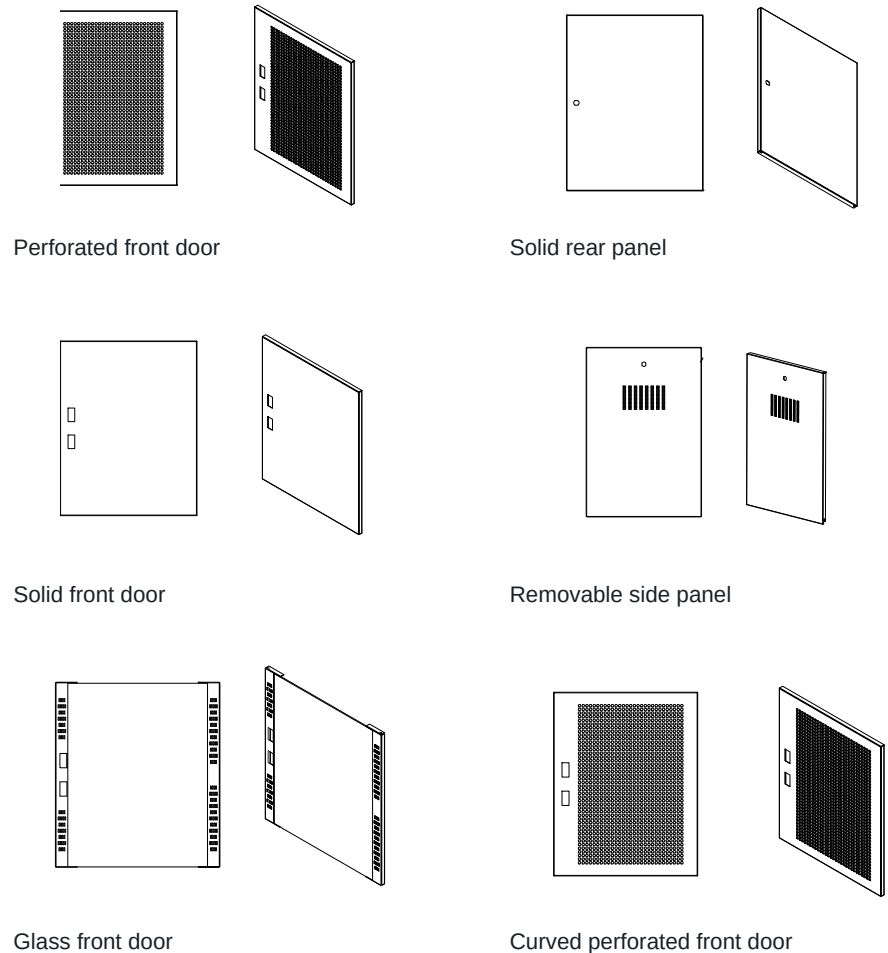

- 1 Locking system
- 2 Glass front door
- 3 Mounting rails

- 4 Side brackets
- 5 Base panel
- 6 Side panel

- 7 Carrier frame
- 8 Rear panel
- 9 Roof panel

Series reference. Specify the selected door; options are not supplied together.

FRONT, REAR AND SIDE PANEL OPTIONS

600 x 600 mm

Compact footprint | Width x depth

For patching, switches and network equipment with modest depth requirements. Verify installed equipment depth, connectors and rear clearance.

H = external height stated in the dimensional drawing. 26U: external height and dimensional drawing to be confirmed before order. Product codes link to the individual model pages; drawing references link within this catalogue.

800 x 1000 mm

Wide and deep enclosure | Width x depth

For network installations with higher cable density, deeper equipment and additional service space. Check the complete equipment layout before ordering.

H = external height stated in the dimensional drawing. 26U: external height and dimensional drawing to be confirmed before order. Product codes link to the individual model pages; drawing references link within this catalogue.

Specify the complete configuration

Use the product code as the starting point; include the door, finish, packing and accessory requirements.

ORDER DETAILS

Cabinet	Product code, quantity and intended equipment load
Door and finish	Glass or metal front door; RAL 9005 or RAL 7035
Installation	Rail positions, cable entry and fan requirement
Packing	Assembled or flat-pack, subject to the selected model
Delivery	Destination country, city and unloading requirements

OPTIONAL EQUIPMENT

Fan modules with digital thermostat or ON/OFF control

Fixed and sliding shelves

Power distribution units

Horizontal and vertical cable management

Blanking panels, fixing sets and earthing accessories

Castors and levelling feet

Select accessories for the cabinet depth, mounting arrangement and intended load. Photos and drawings may show optional equipment.

Technical drawings

Pages 11-55 contain 45 model-specific drawing sheets. Original vector drawings are retained for zooming. The five 26U models are listed on pages 5-9; request their approved dimensional drawings before ordering.
